The expectation is that the selected consultant firm will have an extensive radio systems background and be able to audit the current system, analyze the functionality and operations of the system and develop a comprehensive strategic plan to provide improved communications and operations as well as provide detailed implementations plans for the future.

2.0 BACKGROUND

Prince George County was formed in 1703 in the Virginia Colony from a portion of Charles City County. It was named in honor of Prince George of Denmark, husband of Anne, Queen of Great Britain.

Prince George has a population of approximately 36,656 people which includes approximately 10,159 households, and 8,096 families residing in the county. The population density being 124 people per square mile.

Prince George is transitioning from an agricultural economy to an industrial and informational economy. Fort Lee, the County’s largest employer and economic asset, continues to be a catalyst for progress. Rural, with a suburban western edge, Prince George County continues to experience a steady population increase and economic growth while maintaining an optimum quality of life for its citizens.

Current radio information:

The County’s current radio system consist of UHF 10 Channel Narrow Band Conventional Simulcast Public Safety Radio System which operates from one prime site and six remote radio transmitter sites. It includes four Police channels, three FIRE/EMS channels, school board, general County and County wide channels.

Prince George Police:

The Police Department is a progressive, mid-sized law enforcement agency. The diversified staff includes 54 sworn law enforcement officers, 10 volunteer auxiliary officers, 4 animal services officers, and 14 communication officers. The Department also employees 7 civilians as support personnel that assist in achieving our goals. The County’s emergency communication center is under the direction of the Chief of Police. This center is responsible for emergency dispatch and communications for Fire, EMS, and Police service. By his/her signature on the proposal documents submitted, each offeror attests that her/her agents and/or employees, to the best of his/her knowledge and belief, have not in any way colluded with anyone for and on behalf of the offeror, or themselves, to obtain information that would give the offeror an unfair advantage over others, nor has he/she colluded with anyone for and on behalf of the offeror, or itself, to gain any favoritism in the award of this Request for Proposal.

7.4 IMMIGRATION REFORM AND CONTROL ACT OF 1986:
By submitting their proposals, offerors certify that they do not and will not during the performance of this contract employ illegal alien workers or otherwise violate the provisions of the federal Immigration Reform and Control Act of 1986.

All invoices shall show the state contract number and/or purchase order number; social security number (for individual contractors) or the federal employer identification number (for proprietorships, partnerships, and corporations).

c. All goods or services provided under this contract or purchase order, that are to be paid for with public funds, shall be billed by the contractor at the contract price, regardless of which public agency is being billed.
d. The following shall be deemed to be the date of payment: the date of postmark in all cases where payment is made by mail, or the date of offset when offset proceedings have been instituted as authorized under the Virginia Debt Collection Act.

e. **Unreasonable Charges.** Under certain emergency procurements and for most time and material purchases, final job costs cannot be accurately determined at the time orders are placed. In such cases, contractors should be put on notice that final payment in full is contingent on a determination of reasonableness with respect to all invoiced charges. Charges which appear to be unreasonable will be researched and challenged, and that portion of the invoice held in abeyance until a settlement can be reached. Upon determining that invoiced charges are not reasonable, the County shall promptly notify the contractor, in writing, as to those charges which it considers unreasonable and the basis for the determination. A contractor may not institute legal action unless a settlement cannot be reached within thirty (30) days of notification. The provisions of this section do not relieve an agency of its prompt payment obligations with respect to those charges which are not in dispute (Code of Virginia, § 2.2-4363).

**7.8 QUALIFICATIONS OF OFFERORS:**

The County may make such reasonable investigations as deemed proper and necessary to determine the ability of the offeror to perform the services/furnish the goods and the offeror shall furnish to the County all such information and data for this purpose as may be requested. The County reserves the right to inspect offeror’s physical facilities prior to award to satisfy questions regarding the offeror’s capabilities. The County further reserves the right to reject any proposal if the evidence submitted by, or investigations of, such offeror fails to satisfy the County that such offeror is properly qualified to carry out the obligations of the contract and to provide the services and/or furnish the goods contemplated therein.

**7.9 TESTING AND INSPECTION:**

The County reserves the right to conduct any test/inspection it may deem advisable to assure goods and services conform to the specifications.

**7.10 CHANGES TO THE CONTRACT:**

Changes can be made to the contract in any of the following ways:

1. The parties may agree in writing to modify the scope of the contract. An increase or decrease in the price of the contract resulting from such modification shall be agreed to by the parties as a part of their written agreement to modify the scope of the contract.

2. The County may order changes within the general scope of the contract at any time by written notice to the contractor. Changes within the scope of the contract include, but are not limited to, things such as services to be performed, the method of packing or shipment, and the place of delivery or installation. The contractor shall comply with the notice upon receipt. The contractor shall be compensated for any additional costs incurred as the result of such order and shall give the County a credit for any savings. Said compensation shall be determined by one of the following methods:

   a. By mutual agreement between the parties in writing; or
b. By agreeing upon a unit price or using a unit price set forth in the contract, if the work to be done can be expressed in units, and the contractor accounts for the number of units of work performed, subject to the County’s right to audit the contractor’s records and/or to determine the correct number of units independently; or

7.11 DEFAULT:
In case of failure to deliver goods or services in accordance with the contract terms and conditions, the County, after due oral or written notice, may procure them from other sources and hold the contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies which the County may have.

7.12 TAXES:
Sales to the County are normally exempt from State sales tax. State sales and use tax certificates of exemption, Form ST-12, will be issued upon request. Deliveries against this contract shall usually be free of Federal excise and transportation taxes. Sales tax, however, is paid by the County of Prince George on materials and supplies that are installed by a contractor and become a part of real property. Contractors are not exempt from paying taxes on these categories, as they are considered to be a cost of doing business and should be considered in pricing when preparing a proposal. The County’s excise tax exemption registration number is 54-6001528.

7.13 USE OF BRAND NAMES:
Unless otherwise provided in this solicitation, the name of a certain brand, make or manufacturer does not restrict offerors to the specific brand, make or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article which the public body, in its sole discretion, determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The offeror is responsible to clearly and specifically identify the product being offered and to provide sufficient descriptive literature, catalog cuts and technical detail to enable the County to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Failure to furnish adequate data for evaluation purposes may result in declaring a proposal nonresponsive. Unless the offeror clearly indicates in its proposal that the product offered is an equal product, such proposal will be considered to offer the brand name product referenced in the solicitation.

7.14 INSURANCE:
By signing and submitting a proposal under this solicitation, the offeror certifies that if awarded the contract, it will have the following insurance coverage at the time the contract is awarded. For construction contracts, if any subcontractors are involved, the subcontractor will have workers’ compensation insurance in accordance with §§ 2.2-4332 and 65.2-800 et seq. of the Code of Virginia. (a) It is the responsibility of the offeror to assure that his/her proposal is delivered to the place designated for receipt of proposals and prior to the time set for receipt of proposals. Proposals received after the time designated for receipt of proposals will not be considered.

(b) The provisions of § 2.2-4342 of the Code of Virginia, as amended, shall be applicable to the inspection of proposals received.

7.24 PROPRIETARY INFORMATION:
Section 2.2-4342-F of the Code of Virginia states: Trade secrets or proprietary information submitted by a bidder, Bidder, or contractor in connection with a procurement transaction or prequalification application submitted pursuant to subsection B of 2.2-4317 shall not be subject to the Virginia Freedom of Information Act (2.2-3700 et seq.); however, the bidder, offeror, or contractor shall (i) invoke the protections of this section prior to or upon submission of the data or other materials, (ii) identify the data or other materials to be protected, and (iii) state the reasons why protection is necessary.

7.25 BID ACCEPTANCE PERIOD:
Any bid in response to this solicitation shall be valid for (90) days. At the end of the (90) days the bid may be withdrawn at the written request of the bidder. If the bid is not withdrawn at that time it remains in effect until an award is made or the solicitation is canceled.

7.26 SEPARATE CONTRACTS:
(a) The owner reserves the right to let other contracts in connection with the project, the work under which may proceed simultaneously with the execution of this contract. The contractor shall afford other separate contractors reasonable opportunity for the introduction and storage of their materials and the execution of their work. The contractor shall cooperate with them and shall take all reasonable action to coordinate his work with theirs. If the owner has listed other separate contracts in this Request for Proposals which it expects to proceed simultaneously with the work of the contractor, and has included the estimated timing of such other contracts in the Request for Proposals, the contractor shall integrate the schedule of those separate contracts into his scheduling. The contractor shall make every reasonable effort to assist the owner in maintaining the schedule for all separate contracts. If the work performed by the separate contractor is defective or performed so as to prevent this contractor from carrying out his work according to the drawings and specifications of this contract, this contractor shall immediately notify the owner upon discovering such conditions.

(b) If a dispute arises between the contractor and separate contractors as to their responsibility for cleaning up as required by Sections 8.38(c) and 8.38(d) of these General Terms and Conditions, the owner may clean up and charge the cost thereof to the respective contractors in proportion to their responsibility. If a contractor disputes the owner’s apportionment of clean-up costs, it shall be that contractor’s burden to demonstrate and prove the correct apportionment.
7.27 **TAXES:**

The contractor shall, without additional expense to the owner, pay all applicable federal, state, and local taxes, fees, and assessments except the taxes, fees, and assessments on the real property comprising the site of the project.

7.28 **INSPECTION:**

a. All material and workmanship shall be subject to inspection, examination, and test by the owner and its project inspector at any and all times during construction. The project inspector shall have authority to reject defective material and workmanship and require its correction. Rejected workmanship shall be satisfactorily corrected and rejected material shall be satisfactorily replaced with proper material without charge therefore, and the contractor shall promptly segregate and remove the rejected material from the premises. If the contractor fails to proceed at once with replacement of rejected material and/or the correction of defective workmanship, the owner may, by contract or otherwise, replace such material and/or correct such workmanship and charge the cost to the contractor, or may terminate the right of the contractor to proceed, the contractor and surety being liable for any damages.

b. Job-site inspections, tests conducted on site or tests of materials gathered on site, which the contract requires to be performed by independent testing entities, shall be contracted and paid for by the owner. Examples of such tests are the testing of cast in-place concrete, foundation materials, soil compaction, pile installations, caisson bearings, and steel framing connections. Although conducted by independent testing entities, the owner will not contract and pay for tests or certifications of materials, manufactured products, or assemblies which the contract, codes, standards, etc. require to be tested and/or certified for compliance with industry standards such as Underwriters Laboratories, Factory Mutual, or ASTM. If there are any fees to be paid for such tests and certifications, they will be paid by the contractor. The contractor shall also pay for all inspections, tests, and certifications which the contract specifically requires him to perform or pay, together with any inspections and tests which he chooses to perform for his own quality control purposes. The contractor shall promptly furnish, without additional charge, all reasonable facilities, labor, and materials necessary and convenient for making such tests. Except as provided in (c) below, whenever such examination and testing finds defective materials, equipment, or workmanship, the contractor shall reimburse the owner for the cost of re-examination and retesting.

c. Should it be considered necessary or advisable by the owner at any time before final acceptance of the entire work to make an examination of any part of the work already completed, by removing or tearing out portions of the work, the contractor shall on request promptly furnish all necessary facilities, labor and material to expose the work to be tested to the extent required. If such work is found to be defective in any respect, due to the fault of the contractor or his subcontractors, he shall defray all the expenses of uncovering the work, of examination and testing, and of satisfactory reconstruction. If, however, such work is found to meet the requirements of the contract, the actual cost of the contractor’s labor and material necessarily involved in uncovering the work, the cost of examination and testing, and contractor’s cost of material and labor necessary for replacement shall be paid to the contractor and he shall, in addition, if completion of the work has been delayed thereby, be granted a suitable extension of time.

d. The project inspector will recommend to the owner that the work be suspended when in his judgment the drawings and specifications are not being followed. Any such suspension shall be continued only until the matter in question is resolved to the satisfaction of the owner. The cost of
any such work stoppage shall be borne by the contractor unless it is later determined that no fault existed in the contractor’s work.

e. The project inspector has no authority to and shall not:

   (1) Authorize deviations from the contract documents;

   (2) Enter into the area of responsibility of the contractor’s superintendent;

   (3) Issue directions relative to any aspect of construction means, methods, techniques, sequences or procedures, or in regard to safety precautions and programs in connection with the work;

   (4) Authorize or suggest that the owner occupy the project, in whole or in part;

   (5) Issue a certificate for payment.

7.29 SUPERINTENDENCE BY CONTRACTOR:

a. The contractor shall have a competent foreman or superintendent, satisfactory to the owner, on the job site at all times during the progress of the work. The contractor shall be responsible for all construction means, methods, techniques, sequences, and procedures for coordinating all portions of the work under the contract except where otherwise specified in the contract documents, and for all safety and worker health programs and practices. The contractor shall notify the owner, in writing, of any proposed change in superintendent including the reason therefore prior to making such change.

b. The contractor shall, at all times, enforce strict discipline and good order among the workers on the project, and shall not employ on the work any unfit person, anyone not skilled in the work assigned to him, or anyone who will not work in harmony with those employed by the contractor, the subcontractors, the owner or the owner’s separate contractors and their subcontractors.

c. The owner may, in writing, require the contractor to remove from the work any employee the owner deems to be incompetent, careless, not working in harmony with others on the site, or otherwise objectionable.

7.30 ACCESS TO WORK:

The owner, the owner’s inspectors and other testing personnel, and inspectors from the Department of Labor and Industry shall have access to the work at all times. The contractor shall provide proper facilities for access and inspection.

7.31 TERMINATION BY OWNER FOR CONVENIENCE:

a. Owner may terminate this contract at any time without cause, in whole or in part, upon giving the contractor notice of such termination. Upon such termination, the contractor shall immediately cease work and remove from the project site all of its labor forces and such of its materials as owner elects not to purchase or to assume in the manner hereinafter provided. Upon such
termination, the contractor shall take such steps as owner may require to assign to the owner the contractor’s interest in all subcontracts and purchase orders designated by owner. After all such steps have been taken to owner’s satisfaction, the contractor shall receive as full compensation for termination and assignment the following:

(1) All amounts then otherwise due under the terms of this contract,

(2) Amounts due for work performed subsequent to the latest Request for Payment through the date of termination,

(3) Reasonable compensation for the actual cost of demobilization incurred by the contractor as a direct result of such termination. The contractor shall not be entitled to any compensation for lost profits or for any other type of contractual compensation or damage other than those provided by the preceding sentence. Upon payment of the forgoing, owner shall have no further obligations to the contractor of any nature.

b. In no event shall termination for the convenience of the owner terminate the obligations of the contractor’s surety on its payment and performance bonds.

7.32 GUARANTEE OF WORK:

a. Except as otherwise specified, all work shall be guaranteed by the contractor against defects resulting from the use of inferior materials, equipment, or workmanship for one (1) year from the date of final acceptance of the entire project by the owner in writing. Equipment and facilities, which have seasonal limitations on their operation, shall be guaranteed for one (1) full year from the date of seasonally appropriate tests and acceptance, in writing, by the owner.

b. If, within the guarantee period, defects are noticed by the owner which require repairs or changes in connection with the guaranteed work, those repairs or changes being in the opinion of the owner rendered necessary as the result of the use of materials, equipment or workmanship, which are defective, or inferior or not in accordance with the terms of the contract, then the contractor shall, promptly upon receipt of notice from the owner, such notice being given not more than two weeks after the guarantee period expires, and without expense to the owner:

(1) Place in satisfactory condition in every particular all of such guaranteed work and correct all defects therein;

(2) Make good all damage to the structure, site, equipment, or contents thereof, which is the result of the use of materials, equipment, or workmanship which are inferior, defective, or not in accordance with the terms of the contracts; and

(3) Make good any work, materials, equipment, contents of structures, and/or disturbance of the site in fulfilling any such guarantee.

c. In any case, where in fulfilling the requirements of the contract or any guarantee embraced in or required thereby, the contractor disturbs any work guaranteed under contract, he shall restore such work to a condition satisfactory to the owner and guarantee such restored work to the same extent as it was guaranteed under such other contract.
d. If the contractor, after notice, fails to proceed promptly to comply with the terms of the guarantee, the owner may have the defects corrected and the contractor and his surety shall be liable for all expense incurred.

e. All special guarantees applicable to definite parts of the work that may be stipulated in the specifications or other papers forming a part of the contract shall be subject to the term of this section during the first year of the life of such special guarantee.

f. Nothing contained in this section shall be construed to establish a period of limitation with respect to any other obligation which the contractor might have under the contract documents, including liability for defective work under Warranty of Materials and Workmanship section of these additional terms and conditions. This paragraph relates only to the specific obligation of the contractor contained in this section to correct the work and does not limit the time within which his obligation to comply with the contract documents may be sought to be enforced, nor of the time within which proceedings may be commenced to establish the contractor’s liability with respect to his other obligations under this contract.

g. In the event the work of the contractor is to be modified by another contractor, either before or after the final inspection, the first contractor shall remain responsible in all respects under the guarantee of work and under any other warranties provided in the contract or by law. However, the contractor shall not be responsible for any defects in material or workmanship introduced by the contractor modifying its work. Both the first contractor and the contractor making the modifications shall each be responsible solely for the work done by each. The contractor modifying the earlier work shall be responsible for any damage to or defect introduced into the work which he is modifying. If any contractor shall claim that another contractor has introduced defects of materials and/or workmanship into the work of the first, it shall be the burden of the contractor making the claim to clearly demonstrate the nature and extent of such introduced defects and the responsibility of the other contractor. Any contractor modifying the work of another shall have the same burden if he asserts defects to have been caused by the contractor whose work he is modifying.

8.0 SPECIAL TERMS AND CONDITIONS

8.1 ADDITIONAL USERS:

This procurement is being conducted on behalf of state agencies, institutions and other public bodies who may be added or deleted at any time during the period of the contract. The addition or deletion of authorized users not specifically named in the solicitation shall be made only by written contract modification issued by this agency or institution and upon mutual agreement of the contractor. Such modification shall name the specific agency added or deleted and the effective date. The contractor shall not honor an order citing the resulting contract unless the ordering entity has been added by written contract modification.
8.2 **AWARD OF CONTRACT:**

8.2.1 **AWARD:**

Selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals on the basis of the evaluation factors included in the Request for Proposals, including price, if so stated in the Request for Proposals. Negotiations shall be conducted with the offerors so selected. Price shall be considered, but need not be the sole determining factor. After negotiations have been conducted with each offeror so selected, the agency shall select the offeror which, in its opinion, has made the best proposal, and shall award the contract to that offeror. The County may cancel this Request for Proposals or reject proposals at any time prior to an award, and is not required to furnish a statement of the reasons why a particular proposal was not deemed to be the most advantageous (Code of Virginia, § 2.2-4359D). Should the County determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that offeror. The award document will be a contract incorporating by reference all the requirements, terms and conditions of the solicitation and the contractor’s proposal as negotiated.

8.3 **WORK SITE DAMAGES:**

Any damage to existing utilities, equipment or finished surfaces resulting from the performance of this contract shall be repaired to the County’s satisfaction at the contractor’s expense.
